WHO WE ARE

We are a community of multidisciplinary individuals who aim to revolutionize how design and data is perceived, while creating a culture of growth and change.

We are driven by the enthusiasm to connect aspiring minds with the right people and opportunities.

WHY FOUNDRY?

For us, every individual has the capacity to create change and through our platform we can enable them to do so.

We envision a future where everyone is empowered enough to take on complex problems and is not restricted by skills, scholarship or network.

WHAT WE BELIEVE IN

On-the-go Collaboration

We cast expertise from across the board into our ideas, so that we keep pushing the boundaries of what is possible.

Human-Centric Approach

We do work that impacts lives, you are our biggest inspiration!

Accessibility for all

We believe that the ability to design and shape the world should not be a privilege of a few, it should be a fundamental right.

Empowering Communities

We enable people to broaden their understanding of design and become change-makers.

Interdisciplinary Problem Solving

We apply shared knowledge gained from different fields to solve real world problems.
